

ADPQ Sprint Demo & Retrospective

Attendees

- Lab Zero: Brien, Chris, Clayton, Dean, Matt, Sasha, Aaron, Matt, Chris G

Demo

Product Design

- [Speclet](#)
- [Interview](#) with Requester persona (Dennis Baker)
- Alignment map

Issues

- USWDS assets added to repo
- Extract catalog data from PDF
- Dev setup instructions
- Convert PDF data into useable format for import
- Skeleton React application

DevOps

- CI Setup

Sprint review

Outcomes

- Foundation of app & env established
- Design flows & early interviews

What worked well?

- Quickly spun up technical foundation

What can be improved?

- Reality check
 - We have ~9 working days, what can we deliver?
 - Design/Dev approach definition by story/view to estimate what appears to be achievable
 - Availability of resources (who is realistically available and when)
