

ADPQ Sprint Demo & Retrospective

Attendees

- Lab Zero: Adam, Brien, Clayton, Dean, Jeffrey, Matt, Sasha, Aaron

Demo

Product Design

- Prototype concept test with Robert Lee
 - Small refinements based on user testing feedback
 - Noted out-of-scope steps which could be taken outside of Prototype

Issues

- Login
- Homepage improvements
- Header category highlights
- Item details on list/individual page
- IE10 tests & improvements
- Swagger docs and APIs

DevOps

- DNS names and SSL
- Production VPC and CI Deploy
- Migrations

Sprint review

Outcomes

- List view & detail are functional
- Actual data in homepage
- Swagger requirement met
- DevOps: "behind the scenes" configuration work

What worked well?

- Enjoying CircleCI
- Worked out check-in process for design docs & provided design a branch

What can be improved?

- Some worked over weekend--not ideal

Notes

- Reminder: Due date 3/3 2pm PST
 - Thursday EOD is pencils down
